HOW TO CHOOSE

The Perfect Location For Your Photoshoot

I'm so excited for our *upcoming session!*

Let's think about location, one of the most important elements of each session. It's how you decide what to wear. It's what I refer to before I start planning out poses and prompts. It sets the stage, the vibe, and the theme.

If you've booked this shoot because you want some photos printed, consider where you'll be hanging these prints. Do you want the lush green of a forest? Or the muted cool tones of a beach? Do you want wide open spaces with lots of blue sky? Or the urban grey of a city?

Depending on who's coming to the shoot, we may have some logistics to consider. For any shoots with expectant moms, little kids, people with mobility impairments, or the elderly, let's not pick anywhere that requires clambering over giant boulders or hiking up a canyon. In fact, the closer the location to the parking lot, the better.

**Below are some of my fav locations.
I'm sure you'll love them too.**
